We are IntechOpen, the world's leading publisher of Open Access books Built by scientists, for scientists

6,300

Open access books available

172,000

International authors and editors

190M

Downloads

Our authors are among the

154

Countries delivered to

TOP 1%

most cited scientists

12.2%

Contributors from top 500 universities

WEB OF SCIENCE™

Selection of our books indexed in the Book Citation Index
in Web of Science™ Core Collection (BKCI)

Huntington's Disease: From the Physiological Function of Huntingtin to the Disease

Laurence Borgs^{1,2}, Juliette D. Godin^{1,2},
Brigitte Malgrange^{1,2} and Laurent Nguyen^{1,2,3}

¹GIGA-Neurosciences,

²Interdisciplinary Cluster for Applied Genoproteomics (GIGA-R),
University of Liège, C.H.U. Sart Tilman, Liège,

³Wallon Excellence in Lifesciences and Biotechnology (WELBIO),
Belgium

Retraction to: Borgs L, Godin JD, Malgrange B, Nguyen L. Huntington's Disease: From the Physiological Function of Huntingtin to the Disease. In: Tunalı NE, editor. Huntington's Disease – Core Concepts and Current Advances. Rijeka: InTech; 2012. pp. 3-43. DOI: 10.5772/31789

The publisher is retracting and removing [1] following authors' request. The corresponding author notified the publisher about significant portions of the text in [1] which were taken from other sources without proper attribution.

Results of subsequent publisher's investigation have shown that indeed portions of the text were taken from [2], [3] and [4] without proper attribution.

The publisher and the authors regret any inconvenience this might have caused to the readership.
