Design and Optimization of Networks-on-Chip

Riko Herwanto and Nurfiana

Darmajaya Institute of Informatics and Business, Lampung, Indonesia

Retraction of: Herwanto R, Nurfiana N. Design and Optimization of Networks-on-Chip. In: Alimi IA, Aboderin O, Muga N, Teixeira, AL, editors. Network-on-Chip - Architecture, Optimization, and Design Explorations [Working Title] [Internet]. London: IntechOpen; 2021. Available from: <https://www.intechopen.com/online-first/76322> doi: 10.5772/intechopen.97341

Date of retraction: March 22nd, 2022

The publisher is retracting [1] following an internal investigation which revealed issues with the content of the chapter in regard to a breach of publishing ethics and suspicion of plagiarism.

The investigation was carried out by the publisher internally, after a post-publication quality control process uncovered potential issues with the text of the chapter that weren't made apparent during the initial anti-plagiarism screening.

Further inspection revealed that the contents of the chapter were in many places sourced from existing publications, often verbatim, and without proper attribution and disregard for copyright. Where text hadn't been sourced verbatim, it had been strategically paraphrased by the authors to avoid detection by anti-plagiarism software used during pre-production, and later during the peer-review process.

The authors did not offer any evidence to refute the claims made by the publisher, and failed to provide any additional clarification on the matter.

The publisher has therefore concluded there has been a breach of publishing ethics as a result of misconduct on the authors' part, and is consequently opting to retract [1] effective immediately.

This retraction notice is published in agreement with the authors.

The publisher regrets any inconvenience this might have caused to the readership.
